

Broken

Verse: Em G A E

I never knew i could feel like this before.
The words you never said are knocking at my door.
And in my mind i never had a doubt
the way you walk and the way you talk has got me upside down.

Pre-chorus: Bm G A Bm A/B Bm

Can you fix this girl that's broken?
Can you find the words unspoken?
Can you find a way to make this all alright?
Can you hear the words i'm saying?
Can you stop this game you're playing?
I just need you to be here and hold me tight.

Chorus: E G A Bm A/B Bm

But you don't see,
And you don't care at all,
And you don't know what's going on behind these tears.
You don't feel,
And you don't hear me now,
When i say i might not make it through tonight.

Verse

Now i know that lovers is all we'll be.
And the touch of your hand is a distant memory.
I know how fully you destroy me
One kiss is all it took, if you could only see.

Pre-Chorus

And now the mistakes are over
There's things i never told you.
but I'll never get that chance
will I?
For you to hear me saying
stop this game you're playing.
And fix this girl that's broken from the inside.

Chorus

Bridge: Bm G A Bm

Can you fix this girl that's broken
Can you find the words unspoken
I just need you to help me through this cold and lonely night

Chorus
